

**Invitation to International Vacuum
Electron Sources Conference 2014 in
Saint-Petersburg, Russia**

The 10th International Vacuum Electron Sources Conference (IVESC 2014) will be held from 1 to 3 July, 2014 in Saint-Petersburg, Russia.

The organizer of the conference is the Saint Petersburg State University, a world-known scientific center. It is located in the beautiful Peterhof suburbs, famous for its palaces and fountains. Saint Petersburg State University is one of Russia's three leading universities and its Peterhof campus is an agglomeration of educational and scientific institutions for natural sciences.

The conference will comprise invited presentations and contributed papers, including oral and poster reports for presentation and discussion of recent developments in electron and ion sources as well as in vacuum electronic devices. A call for papers with further details will follow in due time.
